*Referred to as "M.E. Calbrese 1987 Trust" in Decision

Notes:

1. The Water Year (WY) begins October 1 and ends September 30 of the following calendar year. For example, WY 2011 began on October 1, 2010, and ended on September 30, 2011.
2. "Type" refers to water right as described in Seaside Basin Adjudication decision as amended, signed February 9, 2007 (Monterey County Superior Court Case No. M66343).
3. Values shown in the table are based on reports to the Watermaster as received by MPWMD by October 28, 2011.
4. All values are rounded to the nearest tenth of an acre-foot. Where required, reported data were converted to acre-feet utilizing the relationships: 325,851 gallons = 43,560 cubic feet = 1 acre-foot.
5. "Base Operating Yield Allocation: values are based on Seaside Basin Adjudication decision. These values are consistent with the *Watermaster Producer Allocations Water Year 2011* (see Item VIII.A. in 12/1/2010 Board packet).
6. Any minor discrepancies in totals are attributable to rounding.
7. APA = Alternative Producer Allocation; SPA = Standard Producer Allocation; CAW = California American Water.
8. The Marina Coast Water District supply of non-native water for the City of Seaside golf courses as In-lieu production to offset annually the City's balance of Replenishment Assessment is monitored but not calculated into quarterly water production.
9. CAW deducted transfer of 16.3 AF from Coastal Subarea to City of Seaside from first quarter production (transfer occurred 10/1 to 10/24/10). 16.3 AF added to City of Seaside Municipal production.
